

LARGE ELECTROMAGNETIC PULVERIZER VEP-A

Equipped with magnet, this perfect tool is designed to recycle concrete on site and separate rebar and light steel. Eliminates hand picking costs and makes for a safer work environment.

The electromagnet is powered by 24V DC from the carrier, and no additional power generator is required. (230V, 39A for generator is available)

- Heavy duty compact design using high strength steel and high abrasion-resistant steel.
- Trunnion mounted cylinder provides a compact profile.
- Oversized speed valve reduces the cycle time and eliminates over flow issues.
- The widest jaw opening in its class.
- Replaceable four way turnable cutter blades.
- Replaceable bolt-on teeth and Replaceable digging teeth.
