

HYDRAULIC GENERATOR GEN SERIES

PROS

Compact and safe

Can be programmed as needed

Detects equipment failure

Various models available depending on speed of controller and current type (AC/DC) and voltage

TECHNICAL SPECIFICATIONS

GENERAL OVERVIEW

DC HYDRAULIC GENERATOR

This generator is compact. It contains a priority valve for the auto adjust dual pump. It is designed to properly control our magnets during operation.

AC HYDRAULIC GENERATOR

This generator is compact. It contains a priority valve for the auto adjust dual pump. It is designed to properly control our magnets during operation.

CONTROLLER

We also carry an intelligent and programmable controller if required, which appropriately manages your magnet power and detects equipment breakage.

TECHNICAL SPECIFICATIONS

DC GENERATOR MODEL	KW (IN.) / V
GEN-HYD-DC-10	10 / 230
GEN-HYD-DC-15	15 / 230
GEN-HYD-DC-20	20 / 230
GEN-HYD-DC-25	25 / 230
GEN-HYD-DC-33	33 / 230
GEN-HYD-DC-40	40 / 230

AC GENERATOR MODEL	KW (IN.) / V
GEN-HYD-AC-10	10 / 230
GEN-HYD-AC-15	15 / 230
GEN-HYD-AC-20	20 / 230
GEN-HYD-AC-25	35 / 230

**All capacities of AC generators available. Gas or diesel also available.*

COMPATIBILITY

- ✓ Bobcat
- ✓ Doosan
- ✓ Kobelco
- ✓ Liebherr
- ✓ New Holland
- ✓ Terex
- ✓ Case
- ✓ Hitachi
- ✓ Komatsu
- ✓ Link-Belt
- ✓ Sennebogen
- ✓ Volvo
- ✓ Caterpillar
- ✓ John Deere
- ✓ Kubota
- ✓ Mustang
- ✓ Takeuchi
- ✓ Yanmar

OPTIONS

- AC HS Controller (high speed)
