RECYCLING MULTI PROCESSORS VUS-A

With shear jaw set, this third member primary shear is powerful tool for steel structure demolition and steel recycling facilities.

Unlike bulky second member shear, VUS shear provides high maneuverability and production for scrap yard.

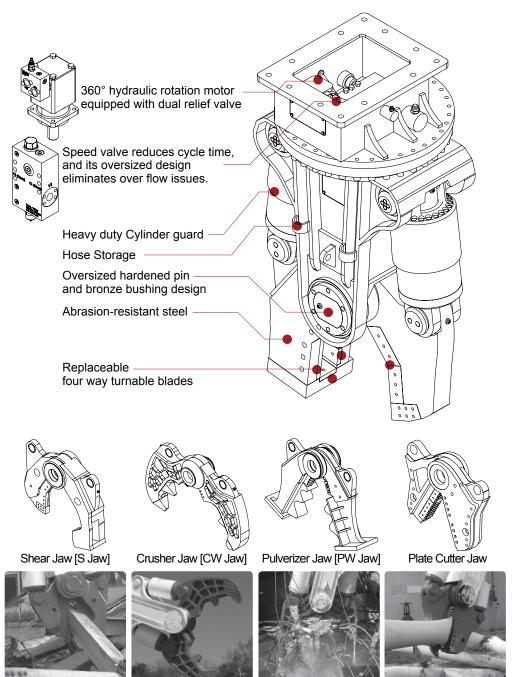

Interchangeable jaws are optional for those who need versatile tools; Cutter jaw is specially effective cutting tank and wide plate.

Single Pin dual cylinder design provides

- Optimized shearing/ cutting angle and continuos force through the cycle.
- Zero slip between two jaws.
- Asymmetric design and independent cylinders movement minimize the stress to the carrier.
