

EXB-HADC HYDRAULIC ANGLING DITCHING BUCKET

* Attachments depicted may include optional paint, upgrades, or custom configurations.

The Craig Hydraulic Angling Ditching Bucket has a flat cylinder design to keep the tip radius to a minimum and allows for up to 45° of rotation. A wide, shallow, smooth curl bucket design makes it ideal for cleaning ditches, grading, and aggregate work with better precision.

- Work quicker, on proper grade, while moving the machine less
- Available in Wedge Lock, Pin-on, S Series, or Manual Bar Lock lugging
- Comes pre-drilled for bolt-on cutting edge
- Includes removable stand for easy pickup and transportation
- Dual acting cylinders deliver more power
- Hoses come ready to work with easy hookup
- AR 400 base edge, side cutters, and wear bar protection
