| Part# | Description | Weight | Width |
|---|---|---|---|
| SFRL72 | 72" Landscape Stone Picker W/ Power Reel | 1,200 lbs | 72" |
| SFRL84 | 84" Landscape Stone Picker W/ Power Reel | 1,330 lbs | 84" |
| SFRL96 | 96" Landscape Stone Picker W/ Power Reel | 1,465 lbs | 96" |
| SFRL108 | 108" Landscape Stone Picker W/ Power Reel | 1,600 lbs | 108" |

### Adjustable Paddles
Adjust the pitch of the paddles to suit the level of aggression needed. This allows for precise control over the stone picker's performance.

### Spring Loaded Pivot Point
Allows the reel to move vertically as it encounters larger rocks. Maintains consistent down pressure for smooth operation.

### Shielding
To keep any foreign matter from coming back towards the operator.

### Hydraulic Driven Reversible Rotary Reel
Spins to pick up any stones and debris in loose soil. The bucket will retain any product that is 1¾" or larger.

### Dual Hydraulic Cylinders
When the bucket is full you can raise up the reel to make room to dump the bucket.
